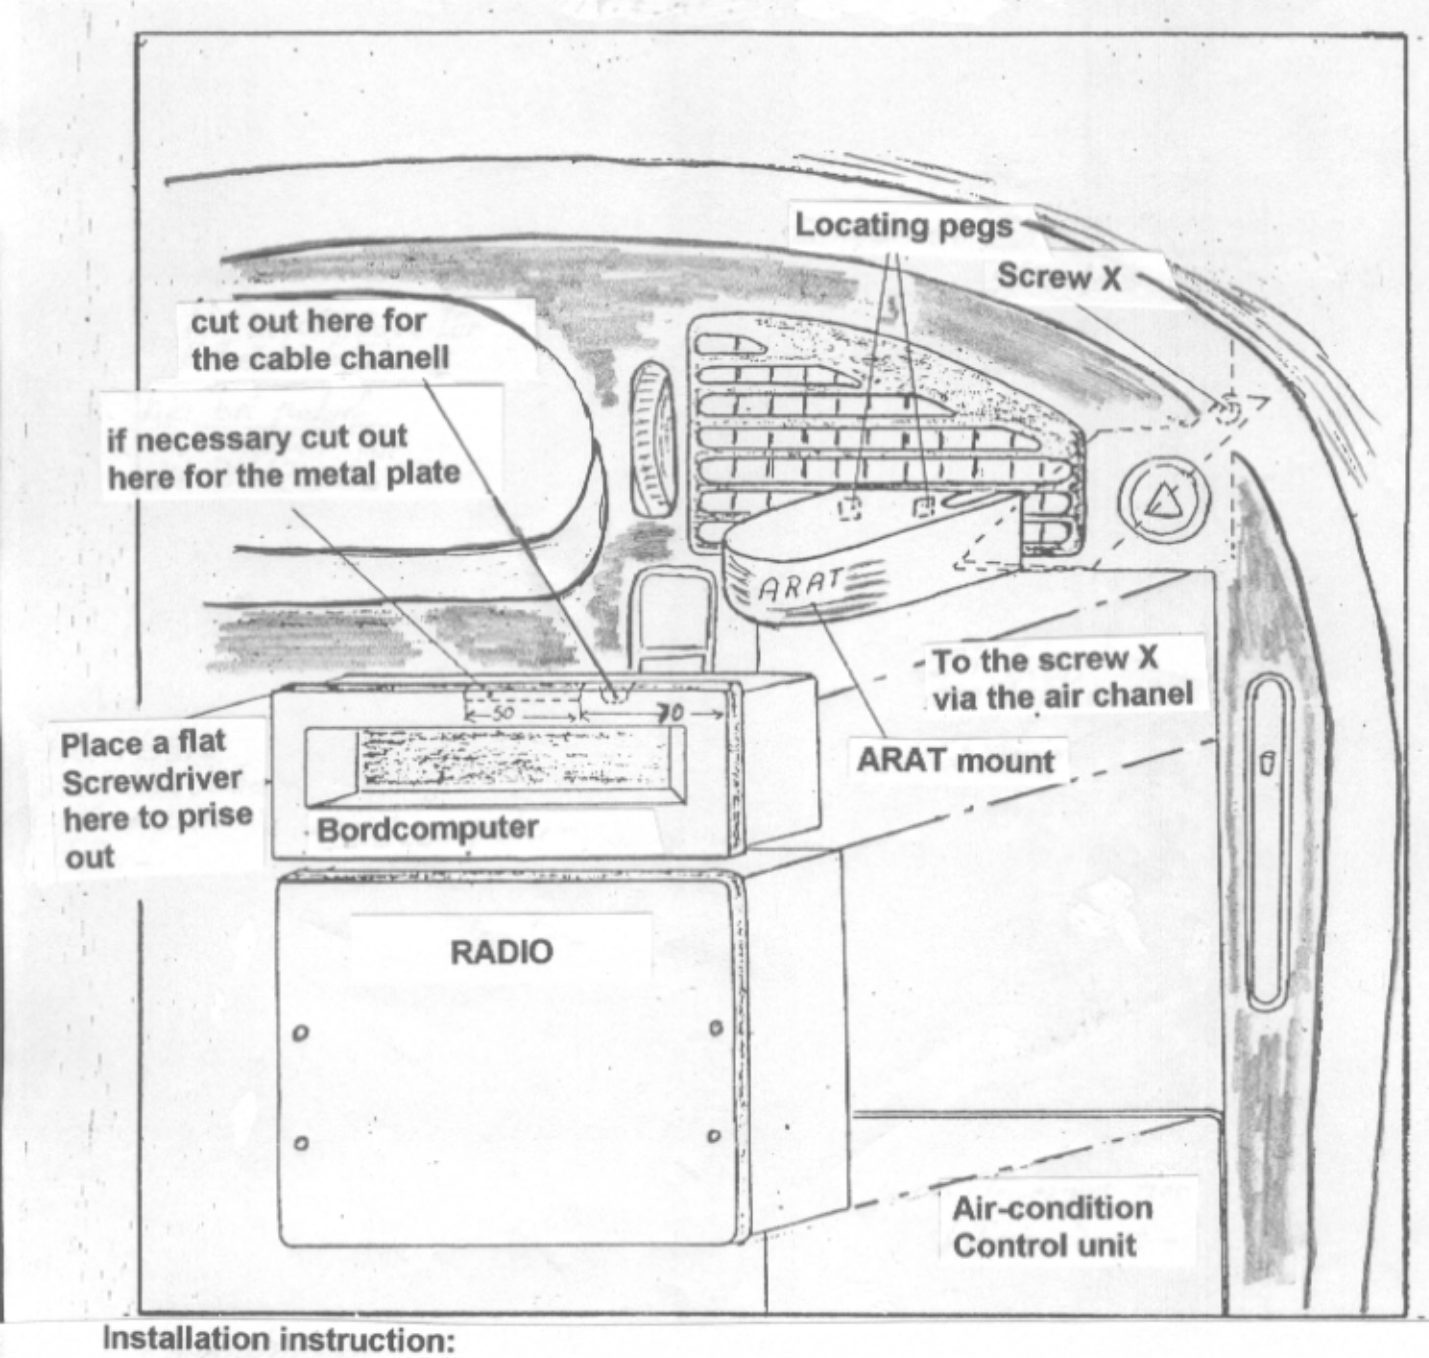
ARAT Navigation mount

Car Manufacturer: SAAB 9/5

Part No: NS1256



Installation instruction:

Remove the Radio from its housing, and prise the bordcomputer from its housing (it is only a push fit)
Remove the screw X, from the air channel (is reachable through the bordcomputer housing)
Place the Navigation mount to the contours of the dashboard, and place the locating pegs into the air vent assembly and secure the screw X through the metal plate back into the hole that it was previously removed from
The navigation mount will be secured tight when you replace the bordcomputer assembly

NOTE: If necessary you may cut out the two marked areas for the metal plate and cable to pass through
